Thirty-Third Year.

GRIMSBY, WEDNESDAY

AUG. 7th, 1918

\$1.50 Per Year 4c Per Copy

Notice to Water Users

Citizens are requested to observe carefully the rules regarding lawn taps.

The hours for sprinkling lawns are as follows—6 a. m. to 9 a. m. and 8 p. m. to 10 p. m. You must not neglect to observe.

The capacity of our reservoir is limited and will only hold a supply for about twelve hours at normal times, so that if lawn taps are allowed to run during the night, it simply means that the reservoir will be empty every morning as we must hope the pumps going at night. This means extra expense and it is important to remind you that all unnecessary expense must be avoided in our time.

W. F. HANSELL.

RJD CROSS

Grimsby Hospital Supplies Club. Twenty-third annual meeting of the Grimsby Hospital Supplies Club was held on Thursday, August 1st at Mrs. Leslie Nelles.

The annual report showed the following supplies shipped during the past year to the Canadian Red Cross Society, Hamilton Branch—

400 Day shirts.

400 Pillow cases.

50 Nurses' aprons with coats.

250 Suits pyjamas.

267 Pairs socks.

Total garments and articles 722.

GRIMSBY HORSES AND HORSES FULL AT THE RACES

On Monday, July 29th, J. Lawrie left here with the four-year-old colt Paddy Patchen, owned by Scott & Lawrie, and since last time he has won two races and starts again to-morrow.

Mr. Lawrie was accompanied by Mr. Wm. Hamilton, of Hamilton, who has been training his horses at GRIMSBY and Beamsville since Dominion Day. Hamilton had with him Chimoillo and Queen of the Patchens.

At Arthur, Ont., on July 31, Mr. Lawrie won the \$200 race in weight heats and Queen of the Patchens got second money. Chimoillo did not start.

At Owen Sound on Civic Holiday Paddy Patchen won again. Chimoillo got third money. The Queen of the Patchens got money.

From Owen Sound the horses went to Galt, Ont.,

and then to Galt, Ont.,

Mr. F. G. Green of Stoney Creek, is having a successful season with his young trotter Oro G. by Oro Rose. The colt is being driven in his races by Victor Fleming of Dundas and so far has been "all in" in his class.

He won two good stakes in the Michigan Short Ship Circuit and got second money in another. And got a mark of 2:14½ trotting at Monroe, N. Y., on Friday, August 2nd the colt won a thousand dollar stake in three straight heats. He will start in another thousand dollar stake at Oshawa, N. Y., this week. Mr. Green has refused \$200.00 for his colt.

FAVTEST HANDS IN URGENT NEED TO SAVE WESTERN WHEAT CROP

Mr. R. L. Fairhurst, General Passenger Agent, Canadian Northern Railway, Toronto, states that as a result of a conference between their representatives and representatives of the Dominion and Provincial Governments at Winnipeg it has been decided that at least 2,000 Harvesters will be required over

and above the usual supply in order to help available to garner the Western wheat crop this year.

An appeal must be made to the East and this help should be limited to reach Winnipeg for distribution to needy points west, from August 20th to September 10th. It is understood that Harvesters wages this year will be from \$2.50 to \$4.00 per day with board, for about three months' work.

RJD CROSS SUBSCRIPTIONS JUNE AND JULY

Going to the amount of the amount of the report was made of the subscriptions received for June. The following include June and July. We are entering the fifth year of the war. The need is definitely greater than ever before and the needs of us who live at home. It leaves a great responsibility to do our UTMOST to help our wounded and our fighting men. Do you want to see the end of the war? This is your part, the victory and peace depend on surely on the participation and sacrifice of the people.

Record In Concrete Bridge-Building

THE double tracking of the North Toronto Subdivisions of the Canadian Pacific Railway between Leaside and North Toronto is now nearing completion, and involved the replacement of bridges (known as 0.2 and 1.8) which heretofore had been trusses constructed of steel. Owing to the high price of steel and the difficulty of procuring it since the war began it was found that reinforced concrete competed successfully against steel.

The bridges were therefore constructed of this material and are a triumph of railway construction work. No. 0.2 being 137 feet long and 30 feet high carrying two tracks and No. 1.8 of similar dimensions but a three track structure. The length of the individual spans and the details of their construction are unprecedented in the engineering world. Previous to this no reinforced concrete beam with a length of more than about 25 feet had been attempted; the spans of these two C. P. R. structures are each from 36 to 37 feet long. These spans have been made possible by the employment of steel construction by which each span was designed as two T beams which, after being manufactured near the work, were laid side by side on the previously built reinforced concrete towers. The towers themselves are really reinforced concrete buildings constructed in the usual manner by means of wooden forms built around a steel reinforcement which was previously assembled and securely wired together. When all was in readiness the concrete was poured by means of long spouts which led in several directions from the main mixing tower. The pouring of the concrete was maintained as continuously as possible until a whole tower was completed. This work was done during the winter of a time when the temperature was below freezing point; it was performed inside of what was virtually a building erected to maintain a suitable temperature around the newly deposited concrete until it was out of danger of being damaged by frost.

These two structures are provided with narrow sidewalks and handrails which enable trainmen to have conveniently along side-standing places. The hand rails add considerably to the aesthetic appearance of the structures which are extremely

attractive in appearance and at the same time satisfactory from a general and utilitarian point of view, besides being absolutely permanent. Both are designed to carry the heaviest engines in existence with a considerable margin of safety, and are epoch-making in the art of bridge engineering inasmuch as they have demonstrated that reinforced concrete can take the place of steel for a very large number of permanent bridges. These two structures are so solid that when passing over them on a train one gets the impression that he is on a solid all instead of a bridge. The method employed in the erection of the reinforced concrete spans is a specially interesting feature of the structures. Each side, as a unit,

weighed 33 tons, which is the maximum load that could be handled by the C. P. R. 100 ton standard operating cranes. The cranes engaged handled an load less than 100 tons, even at tons in weight, or in all something like 6,000 tons, and all this was done without a single mishap to either men or material. Another remarkable feature is that both structures were built without interruption from June, 1917, to July, 1919, while over a shorter period than would have been required to manufacture and erect similar structures in steel. Passenger and freight traffic of the C. P. R. with these spans now running without interruption during the growth of these interesting works.

THE BASS FAMILY.

Nobody works but Father at Spawning Time.

In the Bass family nobody works but Father, according to authority on fish. A decorated postcard has been mailed to many fishermen asking their help for Father bass in his enormous domestic duties by refraining from fishing over the spawning beds.

The card shows a picture of a male bass guarding his nest. At the top of the card, as a motto for his faithfulness, are printed the lines:

"Nobody works but father—
He's on guard all day;
Fins in constant motion,
Keeping the foes away."

According to the printed matter on the card, "In the bass family the male selects a nesting place and then waits and attends to it a mate. From 2,000 to 10,000 eggs are laid, after which the mother bass is driven away, never to return, or to know her progeny."

Father bass takes a position immediately over the nest, constantly fanning it with his fins and ever watchful for intruders. This vigil continues for ten days to two weeks, while the eggs are developing and hatching, and for a few days thereafter, while the young are getting ready to try their nest. Way unto the mother or other enemy which appears too near to the nest. The faithful paternal guardian stands firmly after it and attempts to rip it open with his strong fin. By this means, unless he is attacked by every hunting number of carp or caught by the angler, the father bass is able to hatch his brood and care for them until they scatter for food.

The basses cannot be artificially propagated, and for the supply of such fish we must accordingly depend upon the vigilance of father bass. The spawning time of all bass is governed by water temperature. In normal season in Ontario waters the basses do not leave their nests before July 1, and in late seasons the male bass may be seen hovering over his nest until well past the middle of July.

"Let us therefore give father bass a chance to do his bit in food conservation by waiting for an extension of the close season until July 1, and let us refrain from fishing over the spawning beds whenever we find him guarding his nest, even if it be during the open season."

Northland Seal Fishery.

The seal fishery for 1918, which has just closed, was only a fair one on account of weather and ice conditions. It was prosecuted by 12 steamships, 11 of which went to the ice pack off the northeast coast of the island and 1 to the other to the Gulf of St. Lawrence. One vessel made a second voyage, the only one making a second trip since 1897. She was only fairly successful, as although the seals were very plentiful, weather conditions were most unfavorable.

It is reported that on March 16 it experienced the most severe storm for 40 years, and the vessel that prosecuted the fishery in the gulf reported similar conditions, it being impossible for the steamer to get around owing to terrible storms and heavy ice.

The total catch of seals amounted to 151,431, weighing 3,867 tons 19 hundredweight net, valued at \$862,552. This makes a decrease of 44,797 in number over that of 1917, but an increase in weight of 688 tons 18 hundredweight and an increase in value of \$346,826. Owing to the great demand for all kinds of oils, the price paid for seals has been the highest on record—\$12 per hundredweight for young seals, \$9.40 for old seals, and \$7 for old seals.

About 3,000 seals were taken by landmen this season, and they were found between Cape Spear and Cape Bonavista.—*Commerce Report*.

The German Train.

"At last my dream of freedom has come true and it does not seem right not to have a German beast at my heels all day long. Never allow any one who is tainted with the drop of German blood to speak to you or you will. It is beautiful here and the people are very kind and friendly. I am quite happy. Love to all."

Frederick from Germany after three years of such imprisonment as is known to other lands only from reading between the lines of secret messages sent by the victim, Mr. Percy A. Dunbar, 15th Battalion, in these words writes to Mrs. Bemalow in Toronto from Port Frij, the Hague, Holland. The writer is a second cousin of the late James J. Hill, the American railroad king.

Percy Dunbar went overseas in 1914 with the 4th Highlanders, since known as the 15th Battalion, and was taken prisoner at St. Julian along with many of his comrades in April of the next year. He was in prison camp until May over the Netherlands border.

Roman Catholic Miss.

The Roman Catholics of Canada are accomplishing much in welfare work for the soldiers of the Dominion serving in Europe, according to a recent report received by the Knights of Columbus Committee on War Activities. Right chapels or recreation rooms are now being conducted in England, while two have and a number of tents are to be installed in France. Others are to be erected without delay. A large amount of church supplies have been turned to chaplains to aid soldiers. Communion and recreation are being provided for the men.

Seventh Sea. One to Seven.

Mrs. John Joyce, of Arthurs, just sent her seventh son to the front. Six of her sons enlisted early in the war. One has been killed in action and two others are wounded.

Seven Seas. One to Seven.

William J. Lyle, a Peterborough electrician, recently received a check of 2,400 dollars and is to pay none the worse for an adventure which would commonly be a yard or more away from him.

FUEL SUPPLY FREE

To Municipalities of the
Province of Ontario

OWING to the seriousness of the fuel situation at the present time, the Government of Ontario would urge upon all the farmers or others who may have wood lots, to assist at this time by making provision for their fuel supply from such lots.

The Government would also draw the attention of the various Municipalities throughout the Province to the necessity of taking some Municipal action to secure fuel supply. To this end the Government has decided to issue to any Municipality in Ontario a permit to cut fire wood in Algonquin Park or from other Crown Lands free of charge. For particulars as to localities, conditions of cutting, etc., apply to

G. H. FERGUSON,
Minister of Lands, Forests and Mines,
Parliament Buildings, Toronto.

We in Canada are now faced to face with war conditions, both as to foodstuffs and wearing apparel. Clothing is scarce and rapidly becoming very dear. Three large boats containing hundreds of thousands of dollars worth of English woolens for Canada, were sunk by Submarines in last month. We, despite the great shortage in woolens are still in a position to sell you clothing at reasonable prices and still give good substantial goods that will not assume that "cotton" look after a few weeks wear. We have ready-made suits from \$10.00 up to \$30.00 and make up suits to order from \$15.00 to \$45.00. We manufacture our own goods and can positively save you money on any clothing you may intend to buy. We would also advise that the sooner you buy the better, as the assortment is better now, and prices lower than they will be later on. Assuring you of our best service at all times. Parrar Clothing Manufacturer, 5 Market Square, Hamilton. We give premium tickets.

FULTON
Mrs. W. Cooper and children of Hamilton, are visiting relatives in this community.

Mr. and Mrs. M. H. John and family of Grimsby, visited at the home of Mr. A. H. SC. John on Sunday.

Miss Mary McDougall of Hamilton, is spending her holidays at the home of her brother Mr. H. B. McDougall.

Mr. S. Miller is quite ill again. Mr. W. Stanley visited to Dunnville on Sunday.

The W. I. meets at the home of Mrs. Alkenhead on Wednesday 15th. A good program is in course of preparation, including music and papers by Mrs. J. H. Merritt and Mrs. J. L. Merritt. Members are requested to come prepared to contribute, an collection will be taken for their relief work so sorely needed in war-torn Europe.

Mrs. W. F. Farmer and Mr. and Mrs. W. F. Waters, of L. S. 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 909, 910

YOUR CHILD

will not suffer with sunburn or heat rash if you use Zam-Buk.

The Superintendent of S. A. French Air Camp at Clarkson's, Ont., says: "We always keep a supply of Zam-Buk at our Children's Camp. We use it constantly for sunburn, insect stings and bites, as well as for cuts, bruises and sores, and believe there is nothing to equal it."

Zam-Buk is especially suitable for a child's tender skin, owing to its purity of composition. It contains absolutely none of the coarse animal fat or harsh mineral drugs found in ordinary ointments.

All dealers, 50c. box.

FRUIT GROWERS

Those who have not ordered their Baskets to so now, as we have baskets in stock in Stock in Our Ware houses at Grimsby, Winona and Jordan.

GROWTH OF A HORROR

MANY INVENTIONS MADE TO IMPROVE WARFARE

The Ancients Found Different Ways in Which to Injure Enemies, But the Most Terrible Methods of Causing Death and Suffering Have Been Invented by the Christians

THE first standing army was formed by Gaius, 1092 B.C. The catapult was invented by Dionysius, 390 B.C.

The sword came from ancient Egypt and was used throughout Palestine, Syria and Asia Minor, India and throughout the western world.

It was in Egypt that the three shapes of the sword blade originated, these being the straight, the curved and the half curved.

As the shape became more settled, great attention was given to the adornment of the sword, especially the hilt, which was made of gold. A sword of the Pharaohs had a pommel surmounted by a hawk's head, symbolical of the sun, while studs of gold ornamented the handle. The Roman sword was larger than that of the Greeks, and in the days of the empire many of the sheaths were so covered with repousse work and incrusted with precious stones as to be veritable art treasures. Among the Moors the highest title given to a warrior of renown is "the sword of Allah." The Chinese made swords of iron as early as 1272 B.C.

Bullets of stone were used in 1514, while bombs came into general use in 1634. Bomb vessels had their origin in France in 1651. Fireships first appeared in the early part of the sixteenth century.

The use of cannon dates back to the year 1336. Artillery constructed of brass first appeared in 1425.

Among the curiosities of artillery old inventions have a great place.

Cannons have been made of the most unlikely materials. Leather was used

as early as Henry VIII's day, at the siege of Boulogne.

These articles were stored in London Tower; Evelyn saw them there inscribed "Non Martio opus est cui nec debet Martio."

The Scotch used leather guns in 1640 to batter Lord Conway's fortification at Newburn. In a town on the Island of Chinal, near Ugnacita, Mexico, was found a cannon four feet eleven inches long, with terra rotta balls. It is suggested that when Cortes retired after his great fight at Cuita, Tabasco, the natives copied the Spanish guns in clay, hoping to produce the same results. Artillery was first used in war by the Moors at Alzira, Spain, in 1341. Cannon were first used by the English, by direction of the Governor of Calais, in 1353.

Iron bullets were first mentioned

in the Poppaea in 1550.

Letters of marque and reprisal were first granted in 1295. Muskets were first used in 1470, during the siege of Arras, while chain shot was a device of a Dutch admiral, De Witt, in 1465.

The bayonet was invented in Bayonne, France, about 1470.

Pistols were first employed by the British cavalry in 1544. The revolving-chamber breech of the pistol was patented by Colt in 1851.

Muskets supplanted the bow and arrow among the British soldiers in 1551.

Spain was the first nation to equip foot soldiers with muskets.

London bullets came into use

shortly before the end of the sixteenth century.

The Minie rifle was invented about 1853 by M. Minie, of Vincennes.

The battering ram had its beginning with Artemesios, 441 B.C., while the first army arranged in a regular line of battle was that of Palanake of Argos.

Palamedes is credited with deviating the idea of placing sentinels and pickets around a camp. The watchword as used by sentinels is supposed to have been his conception also.

The most famous cavalrymen of antiquity were the Parthians. Their invasion of Judea, 40 B.C., resulted in such terrible devastation of the country that 100 years later the terror of the Parthian invasion gave the Apostle John the idea for one of his most vivid pictures.

The Minio rifle was invented about 1853 by M. Minie, of Vincennes.

The battering ram had its beginning with Artemesios, 441 B.C., while the first army arranged in a regular line of battle was that of Palanake of Argos.

Palamedes is credited with deviating the idea of placing sentinels and pickets around a camp. The watchword as used by sentinels is supposed to have been his conception also.

The most famous cavalrymen of antiquity were the Parthians. Their invasion of Judea, 40 B.C., resulted in such terrible devastation of the country that 100 years later the terror of the Parthian invasion gave the Apostle John the idea for one of his most vivid pictures.

The earliest sea fight took place between the Corinthisans and the Corcyrenians, in which the former conquered, 664 B.C.

The Venetians made the earliest use of artillery in sea fighting against the Genoese in 1277.

The first use made of breech-loading

by the English was during the engagement with the Spanish Armada, in July, 1588.

Wildfire, sometimes called Grecian fire, was an invention ascribed to Callinicus of Heliopolis. Gunpowder was known in China at a very early period. The mixture of saltpeter, charcoal and sulphur is well known all over the world. It was used in the twelfth century both by Christians and Moors in Spain. Roger Bacon first introduced it into England early in the thirteenth century, but its preparation was at first imperfect, so that it was of very little use until a German monk, Berthold Schwartz, introduced a new method of manufacture in 1320. With the progress of science demands for new varieties in gunpowder have resulted in smokeless powder. It is a compound of gun-cotton and cellulose nitrate, the latter consisting of anodized charcoal which has been soaked in sulphuric acid and nitric acids. Gun-cotton is attributed to the invention of Prof. Schoenbein, of Brazil, who made it known in 1818.

Dynamite, which takes its name from a Greek word meaning strength, is produced by mixing nitro-glycerine with a kind of earth known under its foreign name of kieselguhr. It was first discovered by J. J. Etienne Biot, in 1867. Twenty-one years later it was patented by Alfred Nobel.

The French navy, consisting of

ships, is first mentioned in history.

The man-of-war of the ancient Romans had a crew of 225 men, of which 174 were oarsmen, working on three decks. The speed of this vessel was about six knots an hour in fair weather.

The original regiment of dragoons was organized in England in 1681. British historians assert that such were used by their soldiers at Cressy in 1346.

Military uniforms were originally worn in France by order of Louis XIV, 1663. The French claimed that scarlet color was best fitted for uniforms, in that it is the most difficult color to hit.

Explosive bullets were first used in India for hunting tigers and lions. They were brought into Russia in 1855. In 1868 an international convention declared their employment in war to be inhuman and unnecessary.

The first breech-loading firearm used in this country was the shotgun.

The study of submarine boats, which has been carried on with great interest by the different nations, at present is attracting the attention of the world.

The first war, according to scripture, was begun by a son of Cain, 562 B.C.

China's Condition.

A writer in the Asia Jiro (Asia Review), handles the Chinese question — almost the sole topic of discussion throughout Nippon — in a radically absolute manner. He says:

"There is no hope for poor old China unless a reposer is born."

The article is quite long, but the writer is evidently an extensive traveler in China, for he says the Japanese have no conception at present of the sense of vastness that will overcome them when (as he appears to assume they will) the Japanese attempt the pacification of that country. Especially does he speak of the mighty Yangtze, "so broad that one wonders if it belongs to the family of rivers."

"Everything in China will impress you with wonder and amazement," he says. He adds that the failure of Mr. Li an President was no surprise. "We cannot understand Mr. Li, nor can Mr. Li understand himself. He is quite the Chinese character."

China, like Gaul, is divided in three parts—South, North and Mongolia. They have different languages and manners, but the same "feeling of vastness pervades all China. The writer describes official life in a manner very suggestive of François Marcey's famous satire. In all the four hundred millions of Chinese very few are patriotic. Occasionally one patriot appears, but the great majority of officials are calculating persons who never forget their own interests. In short, the Chinese don't care what becomes of the world as long as they remain unharmed. There are a few insatiable cravers after high government positions. When in power they enrich themselves, and when sufficiently staffed they are on watch for opportunity to "retire." They say: "Give to me the moon to gaze upon, flowers to admire, rather than pomp of power or worldly prizes." And the self-styled Chinese bekaikan himself to a picturesque country place with a galaxy of beautiful women and leaves the world to go to the dogs. If he ever "comes back," the patriotic action is called "emergence from the hearth"—an accurate description, "for his act that of a fire thief."

An account of Chinese battles is narratively humorous. Both sides claim victory for "the heavenly army." The press bureau is considered on most approved modern models. In conclusion, Raaryo-Tei sees no hope for peace in China and a strong man appears, who, as monarch or president, can unite north and south and stop dishonesty in administration.—East and West News.

Decrease in Birth Rate.

The Frankfurter Zeitung says, under a Berlin date line:

"The political committee on population of the House of Deputies, formed for the purpose of considering Dr. Forster's bill on measures to be taken against the decrease in the birth rate, has met. The Ministry of the Interior has submitted a memorandum on the subject. The Government announced through the committee that the Reichstag would consider measures to combat venereal diseases, and also that the comparative decrease in the number of births in war time is much larger than the number of those fallen. Even after the war the birth rate will not attain its former figures."

"The following have been taken as necessary measures:

"1. Housing organization, providing inexpensive houses, furnishing for young married couples, pensions for children."

"2. A committee has been formed to consider the question of providing furniture."

The Mainzer Anzeiger tells of a plan the city of Bonn has adopted for encouraging marriage by bonuses payable for food supplies:

"If one of the newly-married couples has resided in Bonn for at least six months, the Bonn Food Bureau gives them a single supplementary supply of wheat flour, 2 pounds, 1 pound of wheat meal, 2 pounds of sugar, 2 pounds of malt coffee, 2 pounds of butter or some other fat, and 10 eggs."

Population of Bonn.

The assessment of Greater Bonn this year is fourteen and a half million dollars, \$250,000 more than last year's assessment of the city and suburb. The population of the city is 12,213, which is one thousand more than last year.

It's Cold Up There.

Sent up by Italian scientists, a balloon carrying recording instruments reached an altitude of twenty-three miles and found the lowest temperature 70 below zero, twelve miles from the earth's surface.

His Method.

Farm Visitor—How do you get a fowl to tender enough for roasting?

Farmer—I use for, him.

The Wonderful Fruit Medicine

Dr. MARCHANDER, M.D., Hull, Que.
"In my opinion, no other medicine is as good as 'Fruit-a-lives' for Indigestion and Constipation."

"For years, I suffered with these dreadful diseases, trying all kinds of treatments until I was told I was incurable."

"One day a friend told me to try 'Fruit-a-lives'. To my surprise, I found this medicine gave immediate relief, and in a short time I was all right again."

CANADA'S LANDMARKS

RESTORED ANNEXATION DOES
VALUABLE WORK.

Story Note That the Children of the
Young Nation should Remember
More Men Marked by Honourable
Men and Places — Places of Interest
Found in Every Province.

THE ravages of war have destroyed many of the relics of antiquity that marked Northern France and Belgium in a Mass for tourists. The wanton destruction has made an indelible impress upon the minds of all civilized peoples; France and Belgium have not been alone in incurring their loss.

Yet here, in Canada, the march of progress, the gigantic commercializing of a great growing nation, has hidden fair to识别 landmarks that should be dearer to us than any in Belgium, save in beauty, say to the other countries sections of the old world—should be dearer, and would be, if the Canadian people who know of them and appreciated them.

Do we?

Assuredly, we do not.

The Historic Landmarks Association of Canada, through a Dominion-wide effort to accomplish that.

The association seems to have

been launched in the reflected glory

of the battlefield of the Plains of Abraham. Its aim is to spread the patriotic spirit there generated

across the continent, acting from the

old world—should be dearer, and

would be, if the Canadian people

who know of them and appreciated

them.

It deserves to gather from all parts of the Dominion of Canada, all the knowledge available regarding each

or case it is proposed to mark—

obtain verification of the same from

documents in the Dominion Archives,

and other reliable sources, submit

reports from each province to the

Council, which will then consider

the merits of each application and, when

desired, recommend them to the Gov-

ernment for approval.

The "Memorial" of Malta,

erected to commemorate the

first Parliament of Nova Scotia, or of

what was then Canada, situated by

the Canadian Club of that city, was

carried to a successful national comp-

etition through the efforts of our

distinguished citizen, the late Sir

Sanford Fleming, of "Windsorville,"

now the Sir Sanford Fleming Military

Commissioner House, Ottawa.

The Nova Scotia Historical Society

have marked many sites and erected

numerous "memorial" tablets to

Col. J. F. W. Desbarres, Hon. Joseph

How, Sir William Dawson, Hon. T.

MacLoughlin, D.D., and "The site of

the first printing press in Canada,

situated by Bartholomew Green,

etc., 1751; and of Bushell's press,

where the Halifax Gazette, the first

newspaper in Canada was published

in 1752.

Against the Port of Halifax, among

historic ruins recently removed is a

hill of leading the quaint phraseology

of which comes home to us now:

"From Liverpool the good schooner,

the Four Brothers sailed by the

Order of God (the Danger of the

Sea only excepted) and so God bring

the good ship to her Desired Port

in Safety, Amen."

The New Brunswick Historical So-

ciety has commemorated the dis-

covery of the Port and River St.

John, in 1667, by the Sieurs de Mont-

and Champain; and placed memori-

al tablets of early settlement on St.

Orion and Cato's Islands; while the

Daughters of the Empire have erected

a memorial tablet on the wall of

the building on Queen street, Fredericton, in which the Provincial Leg-

islature first met. Old Fort Howe,

the site of the landing place of the

U. S. Loyalists, and grounds, is now

known as Fort Howe National Park.

In Quebec City, as tall of histori-

cal sites, on the Plains of Abraham,

the re-erected Wolfe memorial, is a

monument in itself. The First Mem-

orial was stone to mark the spot

on which he died, 1759. A Second

Memorial was placed in position,

1832. The Third Memorial was set

up by the British Army stationed in

Canada, 1849. This Fourth Memorial

reproduces the Column of the Third

—preserves the Crown and Prince

—and the inscriptions and was set up by the National Battlefields Com-

mission, 1913.

In Montreal, rich in memorials, all

important sites have been marked by

the well-known Antiquarian and

Numismatic Society, now in charge

of the Chateau de Ramezay, a favor-

ite residence of tourists. It was

erected in 1795 by Claude de Ramezay,

Governor of Montreal, and re-

occupied as his official residence for

nearly twenty years. In 1745 it be-

came the property of "La Compagnie

des Indes." After the conquest it

was leased to the British Govern-

ment. Purchased by the

city in 1882; it contains a unique

collection of old portraits, prints,

coins and historical relics of every de-

scription.

At Chambly is a bridge made

to Col. de la Motte.

Travelers up the Ottawa sight a

memorial tablet commemorating the

visit of Lord Head, who made the

tour of the Upper Ottawa with

Indian guides.

Further up at Calumet Island, is

erected a monument to Col. de la

Motte, who made the

tour of the Upper Ottawa with

Indian guides.

Throughout the Province of Ontario many monuments and tablets

mark historic spots. At Ottawa the

Federal Capital, the site of Col. de la

Motte's tour, is marked by the two mem-

orial stones, taken from the arch of

the old Sault Ste. Marie Canal, on the

old "Rideau Canal," July

1825, and preserved by the

Women's Canadian Historical So-

ciety. These are the Royal Engineers

"Cant" and "Carron" respectively.

Two important new monuments

of antiquity that marked

the old Sault Ste. Marie Canal, on the

old "Rideau Canal," July

1825, and preserved by the

long. The water line and the beach is in splendid condition.

Mr. Archer Ponie, who was run into and his auto smashed in

over by an H. G. - B. car, near

Shaver Creek Battle Ground, some

days ago, is greatly improved and

able to get about by use of crutches, as far as the verandas to

the beach front are.

The old original entrance to

the beach, running east past the

Park House, has been opened and

the South entrance closed. That portion

of it along the railroad being

private property.

Monday at the beach was a

record breaker, boats, trains and

other cars brought thousands

of people to the beach and the

ground presented a most

marvelous sight from early morning as

in midday, ice cream and fruit

and Lake Ontario vied with

each other in keeping the visitors

in motion. The number of bathers at the

beach was approximately 10,000
